

Tech Data: PERAFOAM™ Foam Additive

Description: PERAFOAM™ is a very high foaming concentrate especially designed to be used in conjunction with acidic and oxidizing products, such as PERASAN™ 'A' peroxyacetic acid sanitizer/disinfectant. It is liquid and easily dispensed at temperatures as low as 35° F, is hard water tolerant up to 15 grains of hardness, stable to oxidizers, and the long-lasting foam will allow contact on equipment and vertical surfaces for longer periods of time than conventional application methods, resulting in superior cleaning and sanitation results.

Approvals: PERAFOAM™ uses only FDA food grade and/or GRAS ingredients, and can safely be used in federally inspected meat, poultry, and seafood plants. No rinse is required if used at recommended dose rates.

Use Instructions: The PERAFOAM™ additive can be used at 0.5-2 oz per gallon of water, depending on water temperature and type of foam equipment utilized. Other product dilution amounts will vary by manufacturer.

Properties:	FORM:	liquid
	COLOR:	clear/golden
	DENSITY:	8.9 lbs/gal
	FREEZE POINT:	< 30° F
	pH (1%):	6-8
	ACTIVES:	20%
	SHELF LIFE:	1 year

Warnings: Keep out of reach of children. Mild eye irritant. Protective clothing and eye protection should be worn when using this product, or any other chemical product.

Uses: Use as a foam additive for caustic, acid, and sanitizing solutions. May also be used as a general purpose manual cleaner, because its ingredients are safe and mild on skin, eyes, equipment, and is non-corrosive to all types of metals.
